

Features

- Standard 30-foot container design to meet the transportation needs for land and sea;
- 280AhPACK+ Pack-level targeted fire extinguishing + Pack-level fan speed control;
- 1500V DC,20 years of normal use;
- Patented bionic tree runner design, intelligent temperature control system, system temperature difference ≤5°C, battery cycle life increased by 12%;
- Main control cabinet, integrated DC confluence, power distribution, communication and control;
- Cell-level fully automatic fire protection, integrating detection, fire extinguishing, combustible gas detection, smoke prevention, and explosion venting functions;
- The module uses a new type of non-metallic material, the blocking level is 5VA with the characteristics of high temperature resistance, long-life, and excellent insulation ability, which effectively inhibits thermal runaway and electrical insulation problems;
- Black start.

Technical Parameters

	Model	Ener Hexon [®] Explore 5117
Battery parameters	Cell type	LFP-3.2V-280Ah
	Rated power[kWh]	5117.95
	Charge/Discharge ratio	≤0.5CP
	Battery voltage range[V]	1142 ~ 1468.8
System Parameters	BMS	Level 3
	Size (width * Height * depth)[MM]	9125*2896*2438 (30ft)
	Weight[T]	~52
	Ingress protection	IP54
	Operating temperature range	-30~+50°C (>45°C derating)
	Operating humidity range	0~95%RH (non-condensing)
	Auxiliary electrical parameter	25kW-380V&480V/50Hz
	Fire protection	S-type aerosol/HFC-227EA/perfluorohexanone
	Installation	Outdoorinstallation
	Anticorrosion grade	C3 (C4\C5 optional)
	Altitude	Within 3000 m
	Working condition	Up to 2 charges and 2 discharges per day
	System communication interface	Ethernet/RS485
	External system communication protocol	Modbus TCP/IEC61850/Modbus RTU
	Certification	GB/T 36276、GB/T 34131、UL 1973、UL 9540A、IEC 62619、UN 38.3
